

Appointment Confirmation

Thank you for your interest in vision correction options at the New England Eye Center. We look forward to seeing you on [Day, Date] at [Time AM/PM].

You are scheduled to be seen at the following location:

- 260 Tremont Street, 11th floor, Boston, MA. 02111 617-636-3360

In preparation for your visit:

Please plan on being with us for one hour, or for as long as you need to have your questions answered. During this visit we **will not be** dilating your eyes. You will be meeting with our refractive coordinator, along with our team of technicians and optometrists who specialize in vision correction options.

This visit is your opportunity to:

- Meet our team
- Become educated on your options
- Learn about pricing and payment plans
- Most importantly, decide if you are ready to take the next step-scheduling a complete dilated exam, meeting with the surgeon, and planning your vision correction surgery.

We have enclosed some paperwork for you to complete prior to your visit. You may bring it with you or email it in advance to LNewman@tuftsmedicalcenter.org. If you have your contact lens box or prescription, please bring it with you along with your most current pair of glasses.

- If you have had a recent eye exam, you may ask to have these records sent to us for review, but it is not required. You may fax to 617-249-2019.

While we are thrilled you contacted us regarding LASIK, it is our privilege to be able to offer you all advanced vision correction options and recommend to you the procedure that will give you your best personal vision. The [Visian ICL](#) and our [premium cataract lenses](#) are included in these options. Please take a moment to learn about these [procedures](#) and view the [videos](#).

We look forward to helping you see the world more clearly. Kindest Regards,

Your Vision Care Team from New England Eye Center
